

## FUTURE OF THE ARMY

Will Not Be Disbanded In Near Future.

## TROOPS NEEDED IN CUBA

ARMY TO BE PLACED IN BETTER SHAPE.

Organization Will Be Strengthened Pending Peace Negotiations—Immunes Are Not Really Immune, But Can Withstand the Climate Better Than Shafter's Men.

Washington, Aug. 6.—Assuming that Spain has decided to accept our terms for the negotiation of peace, it is expected that the peace agreement will be formally completed by the first of next week, and that hostilities will be suspended at once. This will not be followed at any early date by the disbanding of the army, but, on the contrary, the period before the signing of the formal peace treaty and its ratification by the senate will be devoted to perfecting a complete and effective organization of the army and cleaning, repairing and placing in condition all the vessels of the navy. The sick and wounded of the army who are regarded as incapacitated for further service, probably will be given their discharges as an early step. The men who are in condition or who are suffering only temporary disability will be held together and put in the best possible shape for service. A part of the forces sent to Porto Rico will be kept there and others sent to Havana and other Cuban cities for garrison duty. It is regarded as quite probable that some of the best of Shafter's army, after thorough recuperation in the United States, may have to be sent again to Cuba.

The so-called "immunes" who will take the place of General Shafter's forces at Santiago are not in any case, it is believed, really immune, and it, therefore, is probable that some of them will fall victims to the climate. The protest of Senator Bacon against sending the Georgia Immunes to Santiago indicates lack of confidence in the locality from which the so-called "immunes" came in their ability to withstand the heat. Communications to the department from friends of some of the "immunes" who are now in existence. The department, however, while anticipating that there will be sickness among the immune, and that some of them will have to be brought back incapacitated, does not feel that the great anxiety expressed is warranted. The regiment sent to relieve Shafter, whether actually immune or not, will have there under much more favorable conditions than General Shafter's army did. Shafter's forces had to land in the face of the enemy and their rapid advance involved a sacrifice of all the comforts and many of the necessities, even of field life. They were compelled to the utmost exertion and subjected to exposure and terrible hardships, all of which affected their physical strength and rendered them really subject to fever. The troops sent to relieve them will be provided with all the comforts possible under the circumstances. They will not be called to endure exhausting fatigue and exposure, and may be provided with shelter, wholesome food and the most careful attention. The department will be prepared to relieve those who succumb to the climate. Moreover, after our terms of peace have been approved, the whole island will come under our control, and it is believed the men under Gomez and probably those under Garcia at Santiago will be made use of to occupy the country on the island. The Spanish forces have been withdrawn, thus lessening the need of American troops. It is known that Gomez contemplates becoming a mercenary for such service, and it is believed no difficulties will arise when the Cubans come into direct contact with the Spanish troops.

## MURDER AND SUICIDE.

Woman Strangled Her Husband and Cut Her Own Throat.

New Brunswick, N. J., Aug. 6.—A murder and suicide which occurred late last night was discovered this afternoon in South River, a village six miles from here. Charles Yohansen, a blind man, 49 years of age, and his wife, Christina, were both found dead. It is the general opinion that the woman killed her husband and then committed suicide.

The Yohansens managed the Hoffman house, a little hotel on Main street. They did not live happily together, often quarreling about money. The house was not opened for business this morning, as usual. At noon the neighbors investigated. Lying on a stairway leading to the floor upstairs was found the body of the blind landlady. There was a piece of clothing about his throat, showing plainly how he had been suffocated. In the kitchen Mrs. Yohansen was found dead. Her throat was cut. The theory that the wife committed the double crime is strengthened by the fact that the knife with which her throat had been cut was found in her hand.

## TEXAS FEVER RAGING.

Cattle and Horses Are Dying In California.

Fresno, Cal., Aug. 6.—Cattle and horses that are pastured on King's river are suffering from Texas or splenic fever. Within the last few days 200 head have succumbed to the disease. The disease is not a new thing in this country. Cattle are affected with it each year, but it has never been so bad as it is this year.

Although it had been but a few weeks since the disease made its appearance this year, it is spreading very rapidly. It has extended to the Mussel Slough country and has broken out in other quarters. It is stated that cattle, horses and sheep are affected by it. Although suffering from the dry year to some extent, cattle outside of the infected districts are in fair condition. In this and neighboring counties artificial means have been resorted to to feed and water them.

There are grave fears, however, that the fever at present confined to narrow limits, will spread.

## MRS. VOS' DAMAGE SUIT.

Value of Her Husband's Affection Placed at \$10,000.

Grand Rapids, Mich., Aug. 6.—Mrs. John Vos, wife of Lieutenant Colonel Vos of the Thirty-second Michigan volunteers, now at Fernandina, Fla., today began suit against Mrs. Rose Vandorshis for \$10,000 damages for alleged alienation of her husband's affections. She had already filed suit against her husband for maintenance, declaring he had contributed nothing to his family's support since his regiment assembled, in April.

## NAVY'S WORK IS ABOUT OVER

PROBABLE REDISTRIBUTION OF THE FORCES.

A Powerful Squadron Will Be Sent to the European Station—New Station May Be Established.

Washington, Aug. 6.—If the navy department contemplates any further change in the composition of the eastern squadron, which was destined for a cruise to Spanish waters, the matter has not taken form as yet. This statement applies to the commanders of the ships of this squadron, as well as to the ships themselves, and the talk of sending Admiral Sampson in charge of this squadron, consequently, is rather speculative at this time.

Of course it is understood that in the event peace is restored there must be a complete reorganization and redistribution of the United States naval forces, and this will involve undoubtedly the separation of the four naval commanders of high rank now on duty in connection with the North Atlantic fleet, namely, Admiral Sampson, Commodore Watson, Commodore Schley and Commodore Howell.

The North Atlantic fleet comprises about a hundred vessels, the most numerous and powerful force ever commanded by an American admiral. Such a gigantic force would not be maintained on one station in time of peace. Many of the auxiliary vessels and the monitors, which are unfit for general cruising, will be retired from commission and laid up in the navy yard, or in the case of the former, will be sold. A considerable portion of the remaining vessels will be retained on the North Atlantic station to maintain it as the most important naval command. The others are to be distributed between the various other stations, Pacific, Asiatic and South Atlantic. The European station, which was vacated completely just prior to the declaration of war, will be rehabilitated, and for the sake of the moral effect likely to result, will receive some of the most powerful and modern ships in the American navy. It will be possible, also, with ships at the navy department's disposal, to carry out a long cherished project for the creation of a new station on the South Pacific, with a base probably at Valparaiso or Callao.

Under this plan of reorganization there will be openings for officers for flag rank, and it is thus expected that there will be less friction than heretofore.

But with the exception of the eastern squadron, the North Atlantic fleet is not to be diminished as long as the war continues. More clearly than ever now it is perceived to be the strong right arm of the country, and the naval officers, who are themselves the best of the country, are able to resist the pressure brought to bear at one time upon them to expose this tremendous force to dispersion by pointless attacks upon fortified positions. A distinguished naval officer today called attention to the fact that the most serious result might have followed the disclosure of the demoralized condition of our fleet at Santiago, had not the navy been at hand to protect it. Notwithstanding the best efforts of censorship over telegraph and mails, it is believed that the Spanish government had acquired knowledge of the situation at Santiago, but was powerless to profit by it, for the reason that the navy blocked the way and prevented the dispatch of reinforcements and supplies to the Spanish army in Cuba, the lack of which obliged General Toral to surrender.

## FOR MILES' SOLDIERS.

Van Rensselaer Yacht Sails With Cargo of Supplies.

Philadelphia, Aug. 6.—The steam yacht May, carrying 60 tons of supplies sent by the National Relief commission to the army in Porto Rico, sailed today. The May is the property of Mr. and Mrs. Alexander Van Rensselaer, who placed at the disposal of the National Relief commission about a week ago. The luxurious state rooms and dining rooms were converted into freight rooms and piled high with boxes of food and barrels of bacon. The cargo of the May also includes all kinds of medical supplies and surgical instruments and an ice machine and plant, having a capacity of 500 pounds daily, and cold storage facilities. Those who sailed on the May were Mrs. Van Rensselaer and her daughter, Mrs. Fell, and national relief commissioners Hon. William Potter, Alexander Van Rensselaer, L. C. Vanuxem and G. G. Griffith.

## DEMOCRATS FOR EXPANSION.

Question That Will Come Before Missouri State Convention.

St. Louis, Aug. 6.—The paramount issue at the coming Democratic state convention, which meets at Springfield on August 10, will be territorial expansion. Democrats of New York in particular and the rest in general are, it is said, anxiously awaiting the action of this convention on the question. Ex-Governor Stone is looked upon as a leader of the expansionists. The state administration and a majority of Missouri's congressmen are opposed to any such policy.

## French Steamer Released.

Washington, Aug. 6.—The government has ordered the release of the steamer Manouba, of the Compagnie Generale Transatlantique of France, captured by the American warships in the West Indies, and brought to Charleston, S. C. A decision has not yet been reached as to the Rodriguez, another French steamer captured under similar conditions and held at Charleston.
